Summary

Computer Science and Engineering graduate with hands-on experience in Java Full Stack Development, specializing in Spring Boot, MySQL, REST APIs, and responsive web application development. Experienced in building scalable applications using MVC architecture, database integration, and modern frontend technologies. Completed internships at ParvaM Software Solutions and Sasken Technologies, along with JPMorgan Chase's Software Engineering Virtual Experience Program. Seeking entry-level opportunities as a Software Engineer, Java Developer, or Full Stack Developer.

Education

	2022 – 2026
Cambridge Institute of Technology North Campus	
<i>Bachelor of Engineering (B.E.) - Computer Science and Engineering; CGPA: 8.6</i>	<i>Bengaluru, Karnataka</i>
Christ Junior College	2020 – 2022
<i>Pre-University (PCMB); Percentage:85.5%</i>	<i>Bengaluru, Karnataka</i>
Sri Sharada High School	2020
<i>SSLC; Percentage:94.08%</i>	<i>Bengaluru, Karnataka</i>

Technical Skills

Languages: Java, JavaScript, C

Frontend: HTML5, CSS3, Bootstrap, React, Thymeleaf

Backend: Spring Boot, Spring MVC, REST APIs, Spring Data JPA

Database: MySQL

Tools: Git, GitHub, Postman, Figma

Internship Experience

Java Full Stack Developer Intern | ParvaM Software Solutions

Feb 2026 – May 2026

- Developed full-stack web applications using **Java, Spring Boot, Thymeleaf, and MySQL**.
- Implemented **CRUD operations** and REST APIs for efficient backend functionality and data management.
- Designed and integrated **MySQL databases** to support application requirements.
- Built responsive and user-friendly interfaces using **HTML, CSS, Bootstrap, and JavaScript**.
- Worked with **MVC architecture**, testing, debugging, and Git/GitHub for version control.

Java Intern | Sasken Technologies Ltd.

Jun 2025 – Aug 2025

- Collaborated in a team to develop an **Attendance Management System**.
 - Contributed to backend development and database integration using Java, Spring Boot, and MySQL and assisted in testing, debugging, and implementing its functionalities.
-

Software Engineering Virtual Experience Program (Forage) | JPMorgan Chase & Co. May 2026

- Completed practical software engineering tasks simulating real-world development scenarios.
- Worked with **Java, Spring Boot, Kafka, REST APIs, and database integration.**
- Gained exposure to enterprise software development and backend system design.

Projects

Library Book Issue System (Spring Boot + Thymeleaf + MySQL)

GitHub: github.com/Spoorthi26-reddy/Spoorthi_ParvaMVTU_Internship_2026

- Developed a full-stack library management application to manage books, students, and issue records
- Implemented CRUD operations using Spring Boot and Spring Data JPA
- Designed responsive frontend pages using HTML, CSS, Bootstrap, JavaScript, and Thymeleaf
- Integrated MySQL database and followed MVC architecture for clean project structure
- Tested APIs and application functionalities using Postman and Git/GitHub for version control

Employee Management System (Spring Boot + Thymeleaf + MySQL)

GitHub: github.com/Spoorthi26-reddy/Spoorthi_ParvaMVTU_Internship_2026

- Created a web-based employee management platform for maintaining employee details and operations
- Integrated backend functionalities using Spring Boot and Spring Data JPA
- Built interactive and user-friendly pages with HTML, CSS, Bootstrap, and Thymeleaf
- Maintained structured project organization with MySQL and MVC architecture

Pothole Detection and Area Estimation Using Deep Learning

- Built an AI-based solution for identifying and segmenting potholes from road surface images
- Applied image processing techniques to estimate pothole area for road damage analysis
- Used computer vision and deep learning concepts for accurate pothole detection
- Focused on improving road maintenance monitoring and infrastructure management
- Worked on data analysis, image preprocessing, and model evaluation for better detection accuracy

Achievements

- Completed JPMorgan Chase Software Engineering Job Simulation via Forage.
- Developed 3 end-to-end software projects using Spring Boot and MySQL.
- Successfully completed internships at ParvaM Software Solutions and Sasken Technologies.
- Maintained CGPA of 8.6 in Computer Science Engineering.

Certifications

- Software Engineering Job Simulation – JPMorgan Chase & Co. via Forage
- Full Stack Java Development – ParvaM Software Solutions
- Java Internship – Sasken Technologies Limited
- Infosys Springboard Certification
- AI Tools Workshop
